Professional experience

Having qualified in medicine at *Mansoura University* and got my residency in a world-class urology institute [*Mansoura Urology & Nephrology center*] (2005-2009). My residency was concluded by 7th European urology residents education program (*EUREP*), August-September 2009, Prague, *Czech Republic*.

I got further training in minimally invasive surgery [Endourology and Uro-laparoscopy] for two years in *Mansoura Urology & Nephrology center* (2009-2011), then after to get more special training, I left to *McGill prostate center, MUHC, Montreal, Canada* (2011-2012); to be trained on laser prostatectomy techniques by *Professor Mostafa Elhilali*.

Having been appointed to a major academic, research and teaching urology institute as a staff [*Mansoura Urology & Nephrology center*] at the relatively young age of thirty-two, I have developed a practice specialising in the minimally invasive treatment of urological problems and in particular prostate disorders.

In order to further my interests in prostate disorders, I visited the well known; *Dr Fernando Sancha Gomez*, in *ICUA - Clínica CEMTRO, Madrid, Spain* to identify more laser prostatectomy techniques (April 2014)

Looking for the most advanced techniques in minimally invasive surgical procedures, I have been to *Keck Medical Center, USC, Los Angeles, Ca, USA*; I have been there with *Professor Inderbir Gill* and his colleagues (May 2015)
